Annual High School Music Concert Set For Friday, Apr. 26

Band, Chorus and Music Makers to Be Featured in Program

Over one-half of the entire student body of Antioch Township High school will be represented when the Antioch High school music department presents its annual concert on Friday, April 26.

The high school chorus of 106 voices will present four numbers including "Beautiful Savior" by Christiansen; "Gold and Silver," Lehman; "Glennie-Mia," Friml, and "Wanko 'n Tanka," a Russian folksong.

The school's 50-piece band will present selections by Bachmannoff, Tschalkowski, Wagner, Coates and Gershwin. They will include "Prelude in C-sharp Minor," "Valse of the Flowers," "Prelude from Lohengrin," "The Knight's Bridge," and excerpts from Gershwin's celebrated "Rhapsody in Blue." Hans Von Holwede, music director at the school, said that the program, while unusually "heavy" for the average high school organization, would be handled easily by the local group.

In contrast to the "long-haired stuff" to be presented by the band, the Sequoia Music Makers, popular music addicts, will "swing out" on several "jive" numbers. Although Von Holwede has made no announcement of the tunes to be played, members of the Music Makers assure "alligators" that the "joint will really be jumpin'" when they unlimber their "sludge pumps," etc.

A dance will follow the concert as in former years.

In September of 1941, Lt. Teich left for the Philippine Islands as an aviation ordnance officer of the 692nd Ordinance Division, 10th Pursuit Wing. In the interim he received specialized schooling at Aberdeen Proving Grounds, Aberdeen, Maryland, and Hamilton Field, California.

Many persons were unable to get inside the doors and were forced to leave. The audience was described as the largest ever to be assembled in the auditorium.

Those who were early enough to get in reported that the program was splendidly received by the listeners and that the entertainment was on a par with the standards set up in previous annual concerts.

Special Election Saturday

Voters at a special election to be held Saturday, April 20, will have three choices for a new school site. John and Grace Lucas have offered to donate a parcel of land containing five acres lying on the west of the Lucas property on Grass Lake road for the school. Other sites which will be considered are the land at the corner of Haling road and Grass Lake road, owned by Mrs. Bessie Trieger. Mrs. Trieger has offered to exchange with the school district on an even basis, or if the electors do not care to trade, she has set a cash price of \$5000 on the land. The third tentative site is located north and adjacent to the school property and consists of 19 acres owned by Walter Manz. Manz has set a price of \$6500 on the land.

The Lucas property is located about three-quarters of a mile east of the present school. Other propositions, other than the choosing of a site for the building, include empowering the school directors to secure the land; to issue bonds in the amount of \$70,000; and to erect a new building on the new site.

New Bus Schedule To Be In Effect Within Two Weeks

Henry R. Palm, district manager of the American Coach company, announced today that the delivery of new busses to the company would allow an improvement in the bus service here within the next few weeks. Paul said that delivery of eighteen new pieces of equipment was scheduled for the next few days and that three of the new busses would be used in the Lake region territory.

The new service will provide fourteen round trips daily to Waukegan, according to a tentative schedule which has been worked out. Transportation to Waukegan will be provided almost every hour, beginning at 5:45 a. m. with the last trip starting at 9:15 p. m.

The improved service to Chicago will see busses leaving Antioch for Chicago at 7:10, 11:10 a. m., and at 12:10, 1:10; 8:10, 9:10 and 10:10 p. m. daily. Busses from Chicago will arrive in Antioch at 10:12, 11:12 a. m. and at 12:12, 4:12, 6:27, 7:12, and 8:12 p. m.

The new service will include service on all busses to the state line to connect with Northern limited busses which will operate in Wisconsin. A feeder bus will take passengers between Antioch, Channel Lake and the Fox River.

Palm said that the new schedule was not definite as yet, but that the new service would be inaugurated as soon as possible in order to relieve the present system of the crowded conditions which have been necessary by wartime curtailment of the manufacture of new busses.

Question of Principle—Not Prices

When the government sets out to control prices, and supply and demand—the natural forces of the free market—it must reach ruthlessly into the lives of all the people. There can be nothing democratic about it. The United States is trying to straddle the fence. It is trying to control "inflation" painlessly for as many people as possible with a strong show of democratic justice, which may sound like good political strategy but which simply will not work. The corollary to price control is wage control. Under the government's fence-straddling policy it has not been expedient to control wages. Such a step is unpopular with too many people. On the other hand, the OPA is a splinter of European dictatorship. It rules prices by decree, it sends people to jail, its spies sift through the affairs of thousands of businesses—and the private citizen is effectively barred from seeking relief from its decisions in the regular courts. If OPA is continued, the principle it represents—government by unquestioned decree—must be broadened promptly. Wages too must be controlled, and strikes must be barred. The present half-and-half system—half free, half controlled, is leading to production demoralization.

In deciding the future of OPA, the first question to be answered is, What kind of a system of government do we want in this country? This is a question of principle, not prices. By comparison, prices are irrelevant. To-day no one can talk about prices with any certainty. Inflation may continue its course regardless of the system of government we decide to follow. The point is we must choose a form of government and stick with it, or face anarchy. If the decision is in favor of the traditional American government of checks and balances under which coercion by decree is prohibited, the OPA and the authoritarian principle it represents must be abandoned. If prices go through the roof during the readjustment to the free market, the country will have to grin and bear it with the knowledge that the path of freedom is sometimes hard, although in the end its rewards are worth the sacrifice—something that Americans have known since 1776.

Social "Insecurity" Plans

Estimates of the cost of a comprehensive system of compulsory social security in this country are staggering, ranging as high as 25 per cent of the income of every gainfully employed person. That these estimates may not be far wrong, is indicated by England's experiments with social security. A bill has been submitted to the House of Commons which includes provisions similar to those set forth in the Wagner Bill—the American version of "all out" compulsory social security.

According to the New York Times, "It has been calculated that with the new bill, and on the assumption that not more than 5 per cent of the employable population will be unemployed on the average, the British government will be taking about 24 per cent of the gross income of individuals in compulsory contributions for social security and other forms of social services."

The tragic part of these "social security" proposals is that they would seize by law what most people would otherwise be able to class as "savings." After 25 per cent of an average person's income is arbitrarily deducted by government, he will have precious little cash or incentive left to provide for his own future. Moreover, payment under the government program couldn't keep a church mouse alive and healthy in these days of inflation.

Don't Be a Dunce

In sounding a warning against unwise speculation, the nation's leading stock brokerage firms, as well as the New York Stock Exchange, have urged the public to be cautious. They point out that there are few individuals

who have sufficient experience and knowledge to afford the inherent risks involved in speculation. The nation's largest stock brokerage firm urges individuals to establish funds for home ownership, education, and other forms of savings before entering the securities market. The New York Stock Exchange, through advertising in many newspapers, has urged the public to not buy blindly but to deal through reputable firms who can advise the purchaser on securities of the type he should consider which are best suited to meet his particular requirements.

Nothing is easier to lose than money, and if the person who has saved will follow the foregoing sound advice, it will help maintain the stability of the country, check inflation, and prevent needless financial losses and many heartaches.

LAKE VILLA

On Good Friday evening, April 19, the Rev. Pierson will deliver the last of the series of pre-Easter sermons, "His Sacrifice," at a service at the Community church at 8 o'clock. This will also be a communion service to which all are invited.

On Friday, April 26, beginning at 10 o'clock, a sub-district meeting of the Woman's Societies of Christian Service of the resort area will be held at the Lake Villa Community church in charge of district officers. This meeting will be of special interest to women's groups of the Methodist churches and it is hoped that there will be a large attendance. Luncheon will be served at the school gymnasium at 12:30 and the meeting will convene again at the church at 1:30, when Mrs. W. E. Bradburn will conduct devotions and Dr. George Truman Carl of the Park Ridge church will speak on "Women and Peace."

The Halcyon group met at the home of Mrs. Ada Barnstable on April 11. The newly elected officers of the group are:

President, Mrs. Delbert Sherwood; vice-president, Mrs. Ruth Karolius; recording secretary, Miss Verna Bennecke; corresponding secretary, Mrs. Emma Williamson; treasurer, Mrs. Leonard Armstrong.

Mrs. Rowland Pierson, who has served so capably as president of this group since its organization last summer, was presented a going-away gift of a table centerpiece of Cambridge glass to be used in her new home in East Lansing, Mich., where her husband is a member of the faculty of the college there. The hostess committee, Ruth Haley, Evelyn Hucker and Florence Whitaker, served refreshments at the close of the meeting.

Mrs. Rowland Pierson and son, David, left Monday for Pittsburgh, Pa., to spend some time with her mother before going on to East Lansing, Mich., to join her husband there.

Mr. and Mrs. Russell Nickerson and children visited relatives at Elizabeth, Ill., on Sunday.

School election was held Saturday evening at the school and much interest was shown. Russell Nickerson was elected as trustee for three years to succeed Joe Nader. A total of 69 votes was cast, which is more than have been cast for several years.

Mr. and Mrs. Rudolph Gunnarson, Jr., and daughter came Saturday from California to visit his parents at Fourth lake. He has seen considerable service overseas and is now enjoying his family.

Lt. and Mrs. William Schwenk of Decatur and Mr. and Mrs. H. M. Doyle of Chicago called at the Charles Hamlin home Sunday afternoon. Lt. Schwenk has been in the navy for some time and is now stationed at Great Lakes awaiting discharge.

Mrs. Elsie Hucker, who spent the winter with a friend in California, returned home last week, much pleased with that state.

Mrs. Haley, Sr., of Chicago is visiting at the home of her son, Arthur Haley and wife, on Burnett avenue. The Haley building on Route 21 north of the school is getting under way. It is of cement block construction.

Mrs. D. S. Boyer was a Chicago visitor last Friday.

The choir will present the cantata, "When Christ Arose," at the Easter night service at the Community church at 8 o'clock, and you are invited. The Masonic and Eastern Star lodges will be special guests, and the public is welcome.

As we were saying . . .

(By Jack & Louie)

Howdy, Folks: A customer gave us a shock, the other day. She asked us why we never advertised. Imagine our surprise, as our ads have run more or less regularly.

When we told her we did advertise and showed her an ad to prove it, she said, "Yes, but they look so much like all the rest, why don't you doll them up a bit so they'll be easier to catch?"

That set us to thinking. Maybe she was right. We thought of a lot of ways to make the ads sensational, but decided that columnists got more readers than most writers, so we decided to try our hand as a columnist.

Now, we don't expect to be a Bugs Baer or a Winchell, but we'll try to give you a few smiles now and then, and yes, you're right, we'll talk a little about the Cleaning business.

So wait for our literary efforts in the columns of the Antioch News.

In appreciation of the splendid work and support given me during the Primary Campaign I wish to thank you sincerely.

THOMAS E. KENNEDY

What is your **GUESS?**
on our profits...?

SOMETIMES, although an idea is wrong, it does no harm. Like the idea that a square jaw is the sign of will power. That winters aren't as severe as they used to be, or that red hair denotes quick temper.

But there are other wrong ideas, which are definitely harmful to public confidence in and understanding of industry. One such idea is the current "guessing" about profits made by large business organizations.

Many people are apt to grossly exaggerate the money made by business. So Opinion Research Corporation (an independent organization) made a survey to learn just what the public thinks about profits. Compare these guesses and yours with the International Harvester profit figures given below.

Public guess on war profits . . . 30.0%

I H four war year average profit . . . 4.9%

In this survey, the average of the guesses by the public of the wartime profits made by industry was . . . thirty per cent (30%).

But in the four war years of 1942, 1943, 1944, and 1945, the profits of International Harvester Company averaged only . . . 4.9% on sales. Less than one sixth of what the general public "guessed" for all industry.

For this period, the year by year per cent of profits on sales was: 1942—7.34, 1943—5.59, 1944—3.95, 1945—3.93.

Public guess on peace profits 18.0%

I H four pre-war year average profit . . . 7.17%

In the four peace years of 1938, 1939, 1940, and 1941, the profits of International Harvester Company averaged . . . 7.17%. This is well under half of what the public "guessed" for all industry.

Majority think fair profit in normal times is . . . 10%

I H ten-year average is less than 7%

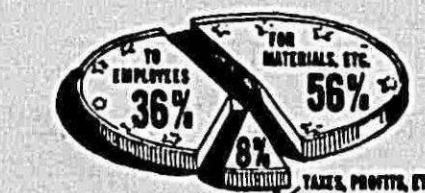

The survey indicates the public knows that in our economy profits are indispensable. And the majority regard 10% as a fair

rate of profit in normal times. Many large businesses, including ourselves, would consider it a banner year if we could reach this figure. Our average profit for the last ten years—four war and six peace—was 6.43%—more than a third less than what the public considers fair.

All these figures show that our profits are not high. As a matter of fact, the entire farm machinery industry is a low profit industry. In 1944, the Federal Trade Commission published a list of 76 industries ranked in order of their ratio of profits to sales. The farm machinery industry was 57th on the list.

What About Current I H Prices?

When the War ended and we planned our peace-time production, we had hoped to be able to serve our farmer customers at the same level which has held since 1942, regardless of war-time increases in costs of wages and ma-

terials up to that time. But recent developments have forced a change in our plans.

Wages and materials consume nearly all of every dollar Harvester takes in from sales. A Government board has recommended and the Company has agreed to pay a general wage increase of 18 cents per hour for Harvester factory employees. The Government has also allowed price increases on raw materials which we purchase in large quantities. Steel has had an average increase of 8.2%.

There has been no general increase in our prices since they were frozen by the Government early in 1942.

So our situation today is that what we BUY costs us 1946 prices. We will be paying average hourly wages 56% above 1941. For what we SELL, we get only 1942 prices. This condition cannot long be met out of our present low rate of profit.

Future Prices on I H Products

It is plain that price relief will be needed to meet the increased wage and material costs which we must carry.

We regret this necessity. We prefer to lower prices, when possible, rather than raise them and we know our customers prefer to have us do that. We had hoped to be able to "hold the line," at least.

But we do not see how we can avoid operating at a loss if our prices continue to remain at their present frozen levels. We will NOT "cut corners" on any of our products, because QUALITY IS THE FOUNDATION OF OUR BUSINESS.

Our customers can be certain that we will seek no more than a moderate profit, both because of our policies and because we have approximately 300 competitors fighting us vigorously for your business. Our request for price relief will be no more than is necessary to insure continued service to our customers, continued work for our employees, and a reasonable return for our stockholders.
